(1) Only in Polished finish.

(2) Only in Suede finish.

(3) Available in Polished finish and in Suede finish.

NOTES:

NBoost does not apply with Integrity technology.

Veined colours have veins in the bottom and walls of the sink/bowl, but it is difficult to match them exactly with the countertop veins.

For another colour, it is necessary to test it (~ 1 month) and a minimum order of 30 units is required.

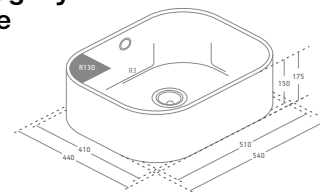

ATTENTION: Integrity is made by mold, so it is not possible to change the longitudinal sink/bowl dimensions (length and width). Only the height can be requested with a different value by specifying it in the order (≤ 150 mm, except Due XL ≤ 210 mm).

SAP ORDERS REMARK:

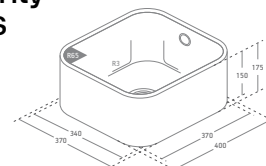

SINK ACA ING + POL/SUE + MODEL + WOO + COLOUR: sink finished with mitred joint, polished or suede, with overflow (not specified) or without it (WOO) and the selected colour.

SINK ACA + POL/SUE + MODEL + WOO + COLOUR: sink finished without mitred joint, polished or suede, with overflow (not specified) or without it (WOO) and the selected colour.
